## CITIZENS MEETING.

A meeting of the citizens of Talladega County was held at the Court House on Monday last to receive the reports from committees appointed at a previous meeting to ascertain what amount of supplies for soldier's families would be subscribed by the citizens of the County at the prices fixed by the previous meeting.

The meeting was called to order by the Chairman, M. H. Cruikshank, and Gen. Jas. G. L. Huey was appointed Secretary.

Hon. Wm. H. Thornton, Probate Judge of the County proceeded to lay before the meeting the reports which had been received. It was ascertained that only partial reports had been made from some of the precincts and that some had not made their reports. The failure was occasioned by a misprint in the Circular issued to the committees which fixed the time of the meeting to which they were to report on the 27th instead of the 24th. Judge Thornton asked for further time to enable the committees to complete their reports. Mr. Brewer from Beat No. 1 and Mr. Montgomery from Beat No. 3 asked that the instructions given to the committees might be so amended as to enable the committees to receive subscriptions in money from parties who had no provisions to subscribe.

On Motion of Dr. B. W. Green the committees were authorized to receive subscriptions for anything that would be essential to the comfort of soldiers families. On motion of Gen. Lawler the Judge of Probate was authorized to distribute immediately six months supply of corn to the families of soldiers that have been reported.

On Motion of G. S. Weaver it was resolved that the meeting when it adjourns stand adjourned until the first Monday in October in order to give the committees time to complete their subscriptions and reports.

The reports sent up though very incomplete showed that above $20,000 besides of corn had been subscribed. They also give the most pleasing assurance that the full amount necessary for the supply of the indigent families of soldiers will be promptly subscribed.

On Motion the meeting adjourned until the 1st Monday in October at which time the subscriptions in cash precisely will be published.

M. H. CRUIKSHANK, Pres't.
JAMES G. L. HUEY, Secretary.

## THE NEWS.

The news received from the Telegraph and from passengers by the upper route give us the gratifying intelligence that Gen. Bragg has achieved a brilliant victory over Rosecrans after three days severe fighting near Ringgold Ga. The battle was fought on Saturday and Sunday last and commenced about eight miles west of Ringgold. The engagement was general and of a desperate character. The loss on both sides is represented as heavy especially in officers. Ours is given at about 5000 killed and wounded. The enemy had been driven back eight miles.

The associated press dispatches on hand the following official dispatch from Gen. Bragg:

CHICKAMAUGA RIVER, Sept. 20, } via RICHMOND, Sept. 21. }

GEN. S. COOPER, RICHMOND.

After two days hard fighting we have driven the enemy, after a desperate resistance, from several positions, and now hold the field, but he still confronts us.—Losses heavy on both sides, and especially in officers. We have taken over twenty pieces of artillery and some twenty-five hundred prisoners.

[Signed] BRAXTON BRAGG, General.

Also the following from the telegraph operator:

ATLANTA, September 21, 6 P. M.—The following private telegram has been received from Gen. Bragg's telegraph operator:

RINGGOLD, Ga., Sept. 21.—We have captured four thousand prisoners and thirty pieces of artillery, and hold the entire battle field and are pursuing the enemy to-day.

Among the associated press dispatches we also find the following:

LITTLE VIXEN, CHICKAMAUGA, } September 20th, 11 A. M. }

The enemy retired from our front under cover of last night, leaving his killed and wounded on the field.

Our victory is complete.

We have captured a large number of prisoners, thirteen pieces of artillery, and have been joined by twenty additional pieces have been captured and about five thousand prisoners.

The army is in fine spirits, ready and eager for a vigorous pursuit.

No additional particulars to report.

We have not been the whole force of Rosecrans's army.

*The Fallacious Theories of the North—Cotton Manufactures—Negroes—Union Sentiment in the South.*

The North is fighting for her varied interests of Cotton manufacture—mechanical employment, applied to Southern wants and Shipping as used by northern bottoms in conveying Southern produce. But the great struggle is for the supremacy of her cotton manufacture. That she feels will be, destroyed by her rival, England—in the event that the South achieves her independance. In 1829, there was one cotton factory in New England in 1860 the Yankee States worked up 700,000 bales of the great staple. This vast and rapidly growing interest (before the war) sustaining hundreds of thousands of operatives extending its beneficial influences throughout the commercial ramifications of the North was of such vast moment, that the blood and treasure of the Yankees must be freely offered, to avert any contingency that might interfere with, or principle that might change, the profitable workings of the great lever of northern wealth. The vandals know that we will look to England for our supplies of manufactured cotton fabrics, when we are separated, hence the issue is, shall the North starve us out. Or shall she fight and die, she has accepted the latter issue, and the Employees of her thousands of factories are weltering in gore, from the Potomac to the Delta. The idea of England (politically) sympathising with the North is an obvious humbug. The destruction of Northern industry gives a stimulous to that of England. The Northern manufacturing interests must be annihilated. And hence England winks, in fact, endorses the building of Confederate men of war, whose mission is to destroy Yankee commerce, a procedure that certainly benifits English bottoms—And makes a Yankee ship a very uncertain method of conveying goods safely or speedily.

The North lives by three interests manufacturing—mechanical and shipping. She is fighting for the first. The war assaults the second. And the latter is predecated on the first, we will whip the North, and the fatality of her theory, that the South depends upon the looms and spindles of Lowell, will be palpably apparent when Southern cotton is worked up in France, Belgium and England and returned to us in better qualities and lower rates.

THE ARMING OF NEGROES.

This is absurd—They will not fight.—The Revolutionary war was "proof sufficient that white men will fight."

The whole country from Maine to Louisiana. The only reclamation made upon the British was we believe 800 negroes.

There are a few intelligent negroes and they are a result of amalgamation. The mass were created for "hewers of wood and drawers of water" and as such they will remain, for all time to come. The cause of the most intelligent aspire to nothing higher than boot black or barber, a few keep doggery—and some make mechanics, (not Architects) or Engineers. They are an inferior race—The officers who lead them (of course) are a low set which is a powerful auxilliary to destroying all *morals* that might have existed by good men. The Negro theory of the North is also a bad one. It will not work. And as the Chicago Tribune says, "where are the Nine Regiments of the ten heralded by Adjt. Gen Thomas." Echo answers where!—It will be unbecombe And-is for effect, and mark our prediction will amount to nothing And so far as it will affect the *Res debinle*—we can assure our readers, will amount to nothing but a canard, as in field fights our Boys, will not be troubled with that complexion of prisoners, or their white faced officers with whiter livers.

FREE UNION SENTIMENT IN THE SOUTH.

This is one of the exploded theories of the North and the last we shall allude to in this article.

The North made a great mistake in this particular. A few men of Northern birth and instinct, whose property and every interest were affected by Secession, did hold out indications—but the mass—those to the "manchons" have rarely seded the Traitor. And the North misled by those indications of their own kind, freaked much, and predicated a great deal on the Union sentiments that asserted their approach—It was a theoretical bubble that has bursted and we are grateful for it. Now will those fools staring us in the face, who is there doubts the discouragement at the North? When are they fighting for, if not for their own interests. Then what can they expect if we whip them, but the destruction of all commercial relations between us. The utter ruin of their industrial resources, and the demolition of shipping and mechanical interests. There is no base to their erected pillar of Yankee progress. The bottom of the sub has fallen out, and by way of peroration we state that the Great Yankee Nation has played out, burned down goes. The spindle, is silent, coffee is unchanged agitated by the pomp and circumstances of war. The Unionists are like spirits in the vast deep—They call for them from the dells and trades of the South but they won't appear.

Let the gallant hearts of the South, stand firm. The North is now mortally whipped. They are writhing. They have made—And their God will destroy them. Wait but a little while and all will be well.
